

**Automatic PILE TURNER HTFF-1650**

**behind the Laminator**

- max. sheet size 1650 x 1650 mm
- max. speed 6 600 s/h
- adjustable packet level
- Non-Stop Ddelivery system
- For Europalette and one way palette
- controll system to the laminator

## TECHNICAL SPECIFICATION OF STANDARD MACHINE

### Suitable for the following Materials

Depending on quality of material and sheet layouts:

- Carton or solid board 2000 g/m<sup>2</sup>
- Laminated flute

### Capability specification

Max. Sheet size:	1650 x 1650 mm
Min sheet size:	500 x 700 mm
Pilling speed:	max. 6600 sheet / hr
Recommended packet level	80 mm

### Dimensions and Weights

Lenght of machine	approx.	6000	mm
Widht of machine	approx.	3100	mm
Height of machine	approx.	3350	mm
Weight of machine	approx.	4,5	t
Level for infeed from the laminator		900 – 1000	mm

### Pile height

Pile incl. pallet	max. 1800	mm
-------------------	-----------	----

### Technical data

Electrical connected load	15	KW
Electrical supply	3	Ph
	400	Volt
	50	Hz
